## 描述

Diaphragm pressure regulators with self-relieving design for mounting side by side. The pressure setting can be locked by pushing the button down. <br/> Sy assembling two or more controllers together, it is possible to supply several working air circuits with different output pressures via a single supply line.

## 订购指南

The port for the output pressure (P2) is on the rear! K-07250028: G 1/8. Lockable pressure regulator: K-07250027. If several devices in the »multifix-mini« Series are assembled together, the maximum working pressure is 12 bar.
