

K-VERBINDER PP

Unions

HANSA FLEX

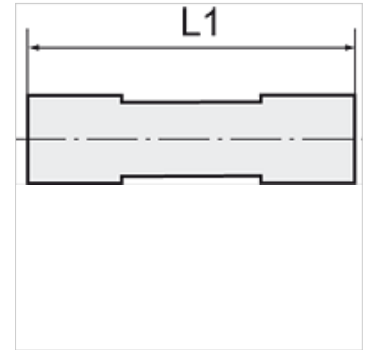

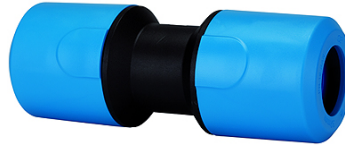

属性

工作压力 on request

工作温度 Max. +20 °C

原料 Polypropylene (PP)

密封材料 NBR

提示

其它数据应客户要求提供。

描述

Lightweight, push-in fittings distinguished by high strength, toughness, resistance to abrasion and impact resistance - ideal for a wide range of applications. Plastic and metal tubes are connected together quickly and easily. Suitable for compressed air or liquids, with good resistance to a large number of chemicals.
